

Please be advised of my vigorous objections of Sinclair Broadcasting to force its stations to show the hateful program, concocted to smear Senator John Kerry. Since Sinclair Broadcasting uses the airways free of charge, it must be cognizant of its responsibilities to show accurate und unprejudicial news.

I urge the FCC to protect my rights as an American citizen to not live in a country where consolidations force the American public to come to innacurate conclusions. I am very concerned for the future of the American public and the forced "dumbing down" of the American populace, programmed by stations proclaiming to tell the truth when in fact, they are controlled by special interest.

Please, insure the rights of the American airways to have the integrity of broadcasting supercede the money and force of special interests. If, in fact, this smear campaign is allowed to continue against the truth, then have each station follow the broadcast with "Upriver" in attempt to have truth available to the viewers whose rights the FCC protects.

Thank you for your attention,
a dedicated American citizen,
Barbara Boggess
